YOUR TITLE—UPPER CASE LETTERS

L. Euler[*]   SECOND AUTHOR[†]   THIRD AUTHOR[‡]

Abstract

Your abstract here. No formula or citation in the abstract

MSC: ...

keywords: here

1   Deadline and page length

Papers can be submitted for publication to any member of the Editorial Board.

Submissions to the Secretariate will be also considered. *Page length not limited*

It is mandatory that the file correspond precisely to the template

2   Instructions

The file must be prepared using LaTeX

- Using the template that can be downloaded from the WEB page. *The preamble of the template cannot be changed.* In particular:

---

[*]`leonard.Euler@math.heaven.edu` Address; Paper written with financial support of. . .

[†]second author address

[‡]third author address

- "\input" should not appear anywhere in the file. For example "\input tclatex" is not allowed.
- AMS-TEX commands should be replaced with LaTeX commands. If LaTeX does not have the corresponding font, **boldface** should be used.
- Personal macros should be removed before mailing the text.

- Figures should be ⋆.eps files. The names of the figures must be the same as that of the file, plus a sequential number.

- Submit both a LaTeX file and the corresponding .pdf file

- The title should be written in upper case letters.

- Authors must be indicated as in the template: initials and family name (upper case initials and first letter of the family name, then low case)

- Affiliation and thanks are to be put in the footnote to the first page, using precisely the procedure in the template. References must be as in the template.

- The file must not contain LaTeX errors. In particular:
  - No warning message should appear when running LaTeX. Pay special attention that the warning message "\end appeared inside a group..." should not show up;
  - warning messages concerning cross references, bibliography etc. should not appear.

Every file is first inspected for the previous rules. Papers that do not comply will not be considered.

A paper that complies with the previous rules will be refereed.

The authors should pay particular attention to the spelling and general correctness.

3 Submission

The paper must be submitted electronically, both a `your-name_initials.tex` file and a `your-name_initials.pdf` file. `your-name_initial` is the family name of the first author and the initial of the name, as `pandolfi_l.tex`, with

a number in case of multiple submissions as in the example: `andrew_l_1.tex`, `andrew_l_2.tex`. Authors of accepted papers will be required that the paper will not be published elsewhere.

4　References

References should be inserted in the body of the paper. Do not use separate files, or $\star$.bib files. The style of the references is as in the examples below. Pay special attention to the punctuation. The style of the references is as follows:

- a report [1]

- a paper [2]

- a book [3]. You can also use [3, Ch 3, p. 45]

- a paper in the proceedings of a conference [4]
